

# THIS THAT & EVERYTHING:

## CONTENTS:

100 double-sided cards  
Score pad  
30-second sandtimer

## OBJECT OF THE GAME:

In this rapid-fire game, players race to describe a wide variety of people, things, and places for their teammates to guess. Try to describe all 6 in 30 seconds!

## BEFORE YOU START:

Place the cards within easy reach. The cards are double-sided, one side with a white background, and the other side with a yellow background. Play whichever side is face down.

Designate a scorekeeper and give them the score pad.

Divide into teams. The team with the player that most closely resembles Justin Bieber goes first. This team selects their first 'Describer'.

## PLAYING THE GAME:

The Describer draws a card and takes a moment to study it. You can describe the items in any order, so start with the items you think your team will guess the fastest.

Someone on the opposing team keeps time (30 seconds per card). The clock starts the moment the Describer starts to speak, and any guesses made after time runs out are not counted.

The Describer's teammates listen to the clues and shout out guesses at the same time. There's no time to be polite, so call out all guesses as they cross your mind. There is no penalty for wrong guesses.

## A Describer must not:

- Say any of the words (or part of the words) on the card
- Use the terms 'rhymes with' or 'sounds like'
- Give a first letter

**Note:** If a team does not comply with the rules, they lose their turn.

Play now moves to the next team. All players must take turns being the Describer.

## SCORING:

After 30 seconds are done, give 1 point for each match. If a team guesses all 6 items on a card, they earn 1 additional bonus point. There are also a few cards with illustrations - a team earns 2 points for each correct guess on these cards.

After 13 rounds, total the scores and the team with the most points wins!
